

ICTS Group – Field Service Technician

As a Field Service Technician you are responsible for:

- Performing maintenance and repair work on double-deck trailers on site.
- Working on: brake systems, air suspension and chassis systems, lighting and electrical systems, chassis and superstructure, hydraulic systems, electronics and sensors.
- Diagnosing and resolving mechanical, hydraulic and electrical faults.
- Carrying out damage repairs on trailers.
- Communicating professionally with customers and providing technical advice.
- Ensuring accurate administrative follow-up of completed work (reports, work orders, interventions).
- Handling tools, equipment and service vehicles safely and responsibly.

Your profile:

- Experience as a mechanic or strong technical background.
- Basic knowledge of electric, hydraulic and modern systems.
- Independent, flexible and solution-oriented.
- Customer-minded and willing to learn.
- Languages: Dutch & English (French is a big plus).
- Driving licence B (C/CE is a plus).

Our offer:

- Attractive salary package based on your experience and motivation.
- Meal vouchers and eco vouchers.
- Fully equipped Service Van for field service interventions.
- Thorough internal training and continuous professional development.
- A dynamic and technical working environment with a high level of variety and responsibility.
- Real long-term career opportunities (*e.g. senior technician, specialist or team leader*).
